Corona, CA - Comedian Nazareth has done it again. After the 3-year run of his successful patriotic comedy concert tour *Proud 2 B American*, Nazareth is working on his new comedy concert tour ***America We Care***. It's a 90-minute, side splitting comedy concert with an encouraging message of hope. It is geared towards the unemployed, people with financial hardships, people who've lost their homes, and Military Families. A mini-job fair will take place prior to the concert as well as giveaways by sponsors to those hurting families afterward the concert.

When asked why he put this tour together, Nazareth referred to a comment he received on his Facebook wall, from a family who told him that although the ticket price for his concert in their area was \$10, their family of four couldn't afford to pay \$40 to attend. That moved Nazareth to realize that there are many Americans who cannot afford to pay for entertainment in this economy.

There are also many other Americans who desire to help and have little extra to offer to others who are hurting. "That is exactly what I want to accomplish from this tour," says
